

Outpatient Therapy Services Now Available

Aultman Therapy Services is excited to provide a new service to enhance the occupational, physical and speech therapy experience of our established patients. If your condition is appropriate for online visits, AultmanNow allows you to access your physical therapist, occupational therapist or speech language pathologist for an online video visit using your mobile device or computer without leaving your home or office.

What is AultmanNow?

AultmanNow is a faster, easier way to have an online therapy consultation using your smartphone, tablet, iPad or computer. It is private and secure, and you can use AultmanNow in the comfort of your own home.

When would I use an online therapy visit with AultmanNow?

- When you and your therapist agree together that an online visit meets your rehabilitation needs.
- To progress your therapy treatment with the assistance of your therapist - without having to travel to the clinic.

What are the benefits of an online visit?

With an online visit, you do not have to leave your home or drive to go to an appointment. Instead you have the ability to visit your therapist in the comfort of your own home or office. In addition, you can invite a family member or guest to join the online visit, if applicable. They can view and listen to the therapist without having to be present (not even in the same state).

What is the cost of an online visit?

Some insurance companies cover online visits. If your insurance does not cover them, a 30-minute visit with a therapist costs just \$49, paid by credit card or health savings account card.
